

***ITS Journal & Proceedings* Permission Release Form**

(Complete and fax to USA: 517 353 1975)

The Turfgrass Information File (TGIF), a cooperative project of the United States Golf Association and the Turfgrass Information Center (TIC) at the Michigan State Universities Libraries, has grown to more than 100,000 index entries, making TGIF an indispensable resource for any serious turf-related research. Subscribers to TGIF can utilize the index to identify relevant information and link to available full-text content. One desired enhancement of the system is to provide not only bibliographic citations and abstracts, but increased full text content of items as well. TIC, cooperatively with the International Turfgrass Society (ITS), and with your help and support, stands ready to make additional full-text access a reality. We would like to enhance full-text availability by including digital copies of older volumes of the *ITS Journal* (and *Proceedings*). **To that end, we are requesting permission to link your articles/contributions in digital form within TGIF. In addition, ITS members will have access to all ITS Journal and Proceedings content so processed via the ITS website.** With your help, users will be able to better access your research findings and other turf management literature. Please help us continue to build this online turfgrass library! Thank you for considering permitting your work to be more easily accessible.

I grant Michigan State University (MSU) non-exclusive copyright permissions to put all my articles or contributions published within the *ITS Proceedings* or *Journal* (with volume availability as determined by the ITS Board) in digital form on the Turfgrass Information Center website: <http://tic.msu.edu/>, without payment of fee, in perpetuity. I authorize MSU to retain a copy of the aforementioned material for use in research, education, and public service programs, including, but not limited to, Web access as part of the collections of the Turfgrass Information File. None of these permissions shall be construed as a transfer of copyright ownership.

I am a United States Federal Government Employee and all my publications are thus in the public domain.

Your Printed name: _____
