

As a Current Academic Subscriber to TGIF did you know?

- ✂ For hands-on training or instructional sessions, a short term license "bump-up" of the standard campus-wide access (normally 5 simultaneous users) is possible. Please notify TIC at least one week in advance if you would like to use the option for instructional or training purposes (by phone (800) 446-8443 or e-mail: tgif@msu.edu).
- The number of simultaneous users cannot exceed 25.
- The machines used for the training/instruction must be in the defined IP range for the institution.
- It would be very helpful to call us prior to the event (or earlier the same day) just to be sure that everything is running smoothly from both sides.
- A 2-page "Getting Started with TGIF" handout which can be useful in orientation sessions is available at http://tic.msu.edu/Getting_Started_TGIF.pdf
- You may wish to review the "FAQs & Hints for Searching" (<http://tic.msu.edu/hints.html>) materials with your trainees.

- ✂ TGIF entries for monographs, (if we are aware of an OCLC number(s),) are linked to WorldCat thereby identifying your local holdings if you are an OCLC library or the closest OCLC library with a copy based on ZIP Code geography. In addition, we are adding HathiTrust links for their digitized materials.
- ✂ Have you added information to your library catalog record for the *Beard's Turfgrass Encyclopedia for Golf Courses, Grounds, Lawns, Sports Fields* indicating that entry-level content is listed within TGIF?
- ✂ Have you added records for TGIF's aggregated serial content to your library catalog and or list of electronic resources? A 'Librarian's list' of these materials, with full title histories, moving walls, OCLC records, etc. is available at: <http://tic.msu.edu/pubjrnlibrowselib.xls> (see back for title list).
- ✂ Do you have an updated IP list with us? Do all your potential users have access? Early TGIF subscriptions were often done by a teaching unit and may not have included campus-wide or proxy server access.
- ✂ RSS feeds are now available for
 - 📡 [The TIC blog](#)
 - 📡 [USGA Turfgrass and Environmental Research Online](#)
 - 📡 Monthly referred additions to TGIF (Feed available from TGIF's Conditions of Use page)
 - 📡 With more to follow
- ✂ A toll-free 800 line is provided for technical support/service requests (USA & Canada only) for use by the institutional contact and teaching/research/outreach faculty and staff use.
- ✂ Do you circulate *The Sward* newsletter to your turf-related faculty?
