The Turfgrass Information Center Endowment Video (opens in YouTube)

The Turfgrass Information Center Endowment

The Turfgrass Information Center (TIC) is pleased to share with you our newly created video in support of the Turfgrass Information Center Endowment!

The Endowment will provide the financial resources to ensure the ongoing operation of the Center, and the Turfgrass Information File (TGIF) database that we have produced for over 30 years. We believe both the Center and the TGIF database are the vehicles by which information required to support turfgrass research, education and management is made more widely available. Supporting the TIC Endowment guarantees the continuation and expansion of the informational underpinning for the world of turf management.

The video above explains why we feel both the Center and the TGIF database are so incredibly important.

Please, feel free to share widely and with anyone you feel has a vested interest in the future of turfgrass management!

-Pete Cookingham & The Staff of the Turfgrass Information Center
