

## Turfgrass Information Center

### Copyright Permission for Full-Text Loading of Monographic Items

The Turfgrass Information File (TGIF) database, a cooperative project of the United States Golf Association and the Turfgrass Information Center (TIC) at the Michigan State Universities Libraries, has grown to more than 250,000 index entries, making TGIF an indispensable resource for any serious turf-related research. Users of TGIF can utilize the index to identify relevant information and link to available full-text content. One desired enhancement of the system is to provide not only bibliographic citations and abstracts, but increased full text content of items as well. TIC, with your help and support, stands ready to make additional full-text access a reality. We would like to enhance full-text availability by including digital copies of any kind of monographic material dealing with turfgrass-related issues. The TGIF record for this item will include an acknowledgement of your permission and a stable, public URL to your item(s) can be provided. With your help, users will be able to better access your research findings and other turf management literature. Please help us continue to build this online turfgrass library! Thank you for considering permitting your work to be more easily accessible.

**Complete and sign the form below and fax to (517) 353-1975 or mail to:**

Turfgrass Information Center  
Michigan State University Libraries  
366 W. Circle Drive W301A
